### **AIRBALL BASKETBALL RULES**

It's not just basketball, it's air basketball! Twice as much fun and twice as much air! The objective of the game is for two competitors or teams to get the plastic balls into their team's hoop using the cones of air. Count how many shots you have made in your own hoop to determine the winner of the game!

For both kids and adults. Comes with (6) plastic balls.

Great for parties, lock-ins, festivals, and fundraisers.

### **SET UP**

1. Remove unit from bag and unroll onto a smooth, level surface.
2. Select one of the (2) blower tubes and tightly strap that tube onto the blower. Plug the blower into your electric outlet. There is a toggle switch located on the front of the blower. Turn it on and the unit will begin inflating.

NOTE: The blower sits at the back of the inflatable. Make sure the blower tube is not twisted or pinched. Tighten the strap at the end of the blower tube not being used to prevent the air from coming out of the inflatable.

4. After the unit is inflated, use the tie-down straps to secure it in place (Stakes or sandbags, depending on where the unit is set up).
5. If using outside, do not operate in rain, darkness, lightening, or wind over 20 MPH.

**I HAVE READ AND UNDERSTAND THESE RULES. I WILL SEE THAT THEY ARE ENFORCED. THIS FORM MUST BE KEPT ONSITE WHILE THE EQUIPMENT IS IN USE.**
