BATTER'S UP INSTRUCTIONS

1. Carefully take the unit out of the bag and unroll so that the entrance is facing the desired direction. If the unit is operated outside, the wind needs to be blowing against the back of the unit.
2. The blower tube is on the back of the unit.
3. Attach the blower tube to the mouth of the blower. Turn the blower on.
4. After the unit is inflated, stake the straps on each corner of the unit or tie the straps to sandbags if set up is on a hard surface.
5. When ready to play, place ball over jet of air coming from the cone in front of the unit.
6. When finished with the game, turn off the blower and unhook it from the unit. Put all accessories in the accessory box provided.
7. Do not operate unit in rain, lightening, darkness or winds exceeding 20 MPH.

I HAVE READ AND UNDERSTAND THESE RULES. I WILL SEE THAT THEY ARE ENFORCED.
